

Large Bulk Liners & FIBC

Our **Solutions** for **Bulk Liners & FIBC**

Winpak offers a number of films to meet the high-strength and barrier requirements for bulk packaging, bin liners and Flexible Intermediate Bulk Containers (FIBC). With solutions ranging from poly films to sophisticated nine-layer coextrusions, packaged materials are protected from a range of contaminants such as dust, moisture, oxygen and/or chemicals. Large gusseted capabilities, specialty formulations and custom sizes position Winpak as a premier supplier for all bulk packaging needs.

Typical Applications

- Bulk food transport
- Drum or box liners
- Dust covers
- EPS liners
- Pharmaceutical products
- Powdered products

The **Winpak Advantage**

- Wide range of products from monolayer films to complex nine-layer coextrusions
- Nylon and EVOH barrier films
- Custom formulations, colors and sizes
- 30+ Years industry experience
- Large width capabilities
- Large gusseted capabilities
- Bags on roll
- Custom printing and bag making

Product Offerings

LF 1500 - Designed for bulk liquid liners and FIBC applications requiring superior performance and flex-crack resistance.

LF 1700 - Liner applications requiring very good moisture barrier or stiffness.

LF 2000 - Liner or IBC application requiring high strength. Available with or without gussets. Small tube applications.

LF 5000 - Nylon liner or FIBC applications requiring high mechanical strength.

LF 7000 - Nylon/EVOH liner or FIBC applications requiring high oxygen or chemical barrier.
