Regarding: Machine Readable Files, Transparency in Coverage Regulations

Recent legislation titled, Transparency in Coverage Rule (TCR) requires health insurers and group health plans to create machine readable files (MRFs) that contain the negotiated rates for in-network providers and allowed amounts derived from historical claims for out-of-network providers and make those files publicly available effective July 1, 2022. Our TPA Independence Blue Cross has provided Winpak with a link that makes these files readily available to anyone requesting this information.

Winpak will adhere to all requirements set forth by CMS and is in the final stages of compliance with all the plan sponsor requirements. In the interim if you would like access to the link for the machine readable files, please contact Angie Plocinik at Creative Benefits our benefits partner. Angie can be reached at aplocinik@creativebenefitsinc.com and will provide the link upon request.

Thank you
