The election of the directors and the appointment of the auditors require a majority of the votes cast to pass.**

The enclosed form of proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the Notice of Meeting, and with respect to any other matters, which may properly come before the Meeting. ELECTION OF DIRECTORS

The Board consists of a minimum of three and a maximum of fifteen directors who are to be elected annually. The Board has recommended that the shareholders elect seven directors at the Meeting.

Canadian corporations listed on the Toronto Stock Exchange ("TSX") are required to adopt a majority voting policy for uncontested elections of directors whereby director nominees, who receive a greater number of votes withheld than for their election, must tender their resignation for consideration by the Board. However, the TSX has recognized that, in the case of majority controlled entities, a majority voting policy may not be effective, as a controlling shareholder can determine the outcome of director elections with its votes alone, and such a policy could create confusion for the minority shareholders as they might erroneously conclude that they could impact the outcome of the vote. As such, the TSX has afforded an exemption to majority controlled entities from instituting a majority voting policy. Since Winpak is a majority controlled company and for the reasons listed above, the Board has chosen to utilize this exemption and not adopt a majority voting policy with respect to uncontested director elections. The Company will, however, disclose the votes for and withheld for each nominee as part of its report on voting results for the Meeting.

The persons named in the enclosed form of proxy intend to vote for the election of each of the nominees whose names are set forth in the following table. Management does not contemplate that any of the proposed nominees will be unable to serve as a director, but if that should occur for any reason prior to the Meeting, the persons named in the enclosed form of proxy reserve the right to vote for another nominee at their discretion. Each director elected will hold office until the next Annual Meeting or until his or her successor is duly elected, unless his or her office is earlier vacated. The Company will have two committees: the Corporate Governance, Sustainability, Compensation and Nomination Committee and the Audit Committee, and directors who will serve as members of these committees are so designated in the following table.

No director has been involved with a company subject to a cease trading order, an order similar to a cease trading order, or an order that denied the relevant company access to any exemption under securities legislation during the past ten years.

No director has been associated with a company involved with a procedure under the Bankruptcy and Insolvency Act (Canada) during the past ten years.

The following table states the names and the municipalities of residence of the persons proposed to be nominated for election as directors, proposed membership of committees, the date they became directors of the Company, their principal occupation or employment and the number of voting shares of the Company beneficially owned, directly or indirectly, by each of them or over which each exercises control or direction.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

The executive compensation program is overseen by the Corporate Governance, Sustainability, Compensation and Nomination Committee (the "Committee") of the Board and applies to the Company's executive officers, including the Chief Executive Officer (CEO), the Chief Financial Officer (CFO), and the other three most highly compensated executive officers of the Company, collectively the "Named Executive Officers". The majority of the Committee members are not independent as defined by the Canadian Securities Administrators, but none are employees of the Company. The Committee, which meets at least annually, consists of four members of the Board who are appointed to serve on the Committee following each annual meeting of shareholders and assists the Board in discharging its oversight responsibilities in respect of director and executive compensation. The Committee members are: Bruce J. Berry – Committee Chair, independent; Antti I. Aarnio-Wihuri, not independent; Martti H. Aarnio-Wihuri, not independent; and Rakel J. Aarnio-Wihuri, not independent. Each member, with the exception of Rakel J. Aarnio-Wihuri, has served in a CEO role and, as such, has had experience in setting compensation levels and policies. Ultimately, the Board makes the final decisions regarding executive and director compensation based on the recommendations brought forward from the Committee.

The overall objective of the Company's executive compensation program is to provide a competitive and balanced compensation plan that will encourage superior performance, attract and retain experienced and qualified individuals and align the executives' interests with those of the Company's shareholders. In this regard, the Committee takes into account risks associated with the compensation program and has not identified anything arising from the Company's compensation policies and practices that is likely to have a material adverse effect on the Company's performance. Areas of potential excessive risk-taking such as inappropriate capital expenditures and acquisitions are specifically scrutinized and approved by the Board, thus mitigating any adverse consequences. Furthermore, the components of the executive compensation program are relatively straightforward and include a base salary, performance-based short-term and long-term incentive programs, pension benefits, and group benefits generally available to all employees of the Company. As the non-equity incentive component of the compensation program for the executive officers is limited to a maximum of 110 percent (CEO-175 percent) of base salary and is split fairly evenly between short-term and long-term incentives, the likelihood of excessive or inappropriate risk-taking is further minimized. In setting compensation levels, the Committee also considers the Company's financial results, market and survey data, input from senior management, executive performance and the overall business environment.

Outside consultants are also available to assist with this process as deemed necessary. The Committee conducts a review of executive compensation every three years, which includes a benchmarking of remuneration levels against market data gathered from compensation surveys and proxy circulars of other publicly traded companies. Transcontinental Inc. is the only other Canadian public packaging company that competes with Winpak in similar markets that is of comparable complexity or size to the Company. As a result, included in the benchmarking are other North American packaging companies for which data is available such as: Amcor Plc; Berry Global Group Inc.; Sealed Air Corporation and Sonoco Products Company, as well as publicly traded manufacturing companies in Canada with similar revenues and complexities. The Committee utilizes this information as well as its own judgment and discretion in determining actual compensation levels. The most recent review was conducted and approved by the Board in December 2021 with adjustments to executive salaries effective as at January 1, 2022. In 2022, the Company will be modifying the long-term component of the executive incentive program whereby the incentive entitlement for a given year is converted to restricted share units (RSUs) based on the current market value of the Company's common shares and after a period of three years, the cash value of the RSUs is paid to the executive based on the market value of the Company's common shares in effect at that point in time. In addition, effective January 1, 2022, the maximum combined short-term and long-term incentive entitlement was increased to 135 percent (CEO-200 percent) of base salary.

2021 EXECUTIVE COMPENSATION PROGRAM

The 2021 executive compensation program consisted of both fixed and variable elements:

Fixed Compensation - Base Salary

The only element of compensation that is fixed is base salary. The base salaries of executives are reviewed every three years by the Committee, taking into consideration market surveys and benchmarking against peers, the executive's level of experience and performance, the financial performance of the Company, and the CEO recommendations for his direct reports. The CEO does not take part in recommendations or Committee discussions regarding his compensation. The most recent review was approved by the Board in December 2021 with adjustments to executive salaries becoming effective as at January 1, 2022.

Variable Compensation

The variable elements of compensation for all members of the Executive Committee range from short-term to long-term, non-equity cash incentive plans.

Short-Term, Non-Equity Cash Incentive

The short-term, non-equity cash incentive plan is designed to recognize financial and operational performance for the current year. Each year, performance targets for the Company and its business units are established by the Board as derived from the annual operating plan. The performance target is based on income from operations less an imputed interest charge on assets employed in the case of individual business units and on income before income taxes in the case of consolidated results. The targets are also adjusted for foreign currency translation adjustments. Short-term incentives for business unit presidents are based on business unit results, while corporate executives are remunerated based on consolidated results. Cash incentives of up to 60 percent (CEO-100 percent) of base salary are payable to the executive depending on actual results achieved in comparison to the targets established annually by the Board. No incentive is paid if the actual results fall below 85 percent of the target level and the maximum incentive is paid if the actual results exceed the target level by 15 percent. All members of the Executive Committee are participants in the short-term, non-equity cash incentive plan. The target established by the Board for corporate executives for 2021 was $156.6 million US in income before income taxes prior to foreign currency translation adjustments. Pursuant to section 2.1(4) of National Instrument Form 51-102F6 – Statement of Executive Compensation, the Company does not publicly disclose the specific targets set for business unit presidents based on individual business unit results as disclosure of such sensitive information could result in competitive harm to the Company.

Long-Term, Non-Equity Cash Incentive

The long-term, non-equity cash incentive plan is designed to focus management on the development and implementation of longer-term strategic initiatives of the Company and align the interests of the Company's executives with those of its shareholders. The plan is also designed to foster enhanced coordination and cooperation amongst the business units since the incentive is based solely on consolidated results. Individuals with three years of tenure in an executive position have the opportunity to earn an incentive payout of up to 50 percent (CEO-75 percent) of base salary depending on the compounded annual growth rate of income before income taxes over a rolling 4-year period. No incentive is paid if the compounded annual growth rate in income before income taxes falls below 3 percent and the maximum incentive is paid if the compounded annual growth rate exceeds 9 percent during the 4-year period. All members of the Executive Committee are participants in the long-term, non-equity cash incentive plan except Gregory L. Powell who will not participate in the long-term component of the plan until January 1, 2024 when he has completed the minimum years of continuous employment in his current position. Until that time, he will continue in a similar plan for other senior management. As of January 1, 2022, Mustafa Bilgen began to participate in the long-term component of the plan. Effective January 1, 2022, the long-term, non-equity cash incentive plan was converted to an equity incentive plan, the maximum incentive entitlement was increased to 75 percent (CEO-100 percent) of base salary and the maximum incentive will be earned when the compounded annual growth rate exceeds 7 percent during the 4-year period.

In the case of both the short-term and long-term, non-equity cash incentives, the Board has the ability to exercise discretion to increase or decrease the size of an incentive payment regardless of whether a stated target is achieved or not. However, the Board has rarely done so and is unlikely to do so in the future.

The following table presents all incentive plan awards earned during the most recent fiscal year. The Company does not offer any option-based awards. All amounts earned in Canadian dollars have been translated into US dollars based on the 2021 average rate of US $1.00 = CDN $1.2555.

Name	Non-Equity Incentive Plan Compensation - Value Earned during the Year ($)
Olivier Y. Muggli	88,708
Larry A. Warelis	34,350
Mustafa Bilgen	39,415
James C. Holland	58,934

Benefits

Benefits provided to the executives are generally consistent with those provided to all other salaried employees of the Company. These benefits include extended health and dental insurance, life insurance, accidental death and dismemberment benefits, and short-term and long-term disability insurance.

Pension Plans

The Canadian-based Named Executive Officers of the Company are members of a non-contributory defined benefit pension plan. The plan provides an annual benefit payable at age 65 equal to, for each year of credited service, 2 percent of the average annual earnings rate during the highest 36 consecutive months of earnings limited by the maximum set by the Canadian government.

Effective January 1, 2001, a non-contributory, supplementary pension plan ("supplementary income plan") was established for the Canadian-based executive officers to offset the limitations set by the Canadian government under the defined benefit pension plan. The plan provides to these executives an annual benefit payable at age 65 equal to, for each year of credited service, 2 percent of the highest average annual base remuneration excluding incentive payments during the highest 36 consecutive months of earnings prior to retirement, less the amount payable under the defined benefit pension plan. To limit the Company's retirement benefit liability, the average remuneration level for benefit purposes cannot exceed CDN $340,000.

All US-based Named Executive Officers of the Company participate in a 401(k) Plan, where employee contributions of up to 6 percent of earnings are matched by the Company at 100 percent for employees hired after January 1, 2005, subject to the limits set by the Internal Revenue Service. The maximum employer contribution allowable under this formula in 2021 was $17,400.

For both the defined benefit pension plan and the supplementary income plan, the benefit is not reduced for early retirement at age 62. Early retirement is permitted at any time after the age of 55. However, for retirement before the age of 62 under the Canadian defined benefit pension plan and the supplementary income plan, the benefit is reduced by one-third of one percent for each month that the retirement date precedes age 62. The following table presents information regarding the defined benefit plan and supplementary income plan benefits earned by the Named Executive Officers during the year. The pension benefits described below are determined using the same actuarial assumptions as were used to determine the accounting information for pension plans as disclosed in Notes 3 and 19 of the Company's audited annual consolidated financial statements for the period ended December 26, 2021.

(2) The compensatory change includes the service cost for the year and any adjustments to the accrued obligation as a result of salary increases other than expected and is translated into US dollars at the 2021 average exchange rate of US $1.00 = CDN $1.2555. ADVISORY VOTE ON EXECUTIVE COMPENSATION (SAY ON PAY)

The Company is committed to continually enhancing its corporate governance practices and places a high importance on facilitating regular and constructive dialogue with shareholders. One method of shareholder engagement that is increasingly being utilized by reporting issuers is a “Say on Pay” advisory vote on a company’s approach to executive compensation. These advisory votes provide shareholders with an opportunity to express their satisfaction with a company’s approach to executive compensation. This disclosure has been approved by the Board. The following resolution is being proposed to the shareholders by the management of the Company.

“BE IT RESOLVED, on an advisory basis only and not to diminish the role and responsibilities of the Board of Directors, that the shareholders of the Company accept the approach to executive compensation disclosed in the management proxy circular of the Company dated March 2, 2022 delivered in advance of the 2022 Annual General Meeting of Shareholders of the Company.”

As this is an advisory vote, the results will not be binding upon the Board. However, the Board will consider the outcome of the vote as part of its ongoing review of executive compensation. The Board believes that it is essential for the shareholders to be well informed of the Company’s approach to executive compensation and considers this advisory vote to be an important part of the ongoing process of engagement between the shareholders and the Board.

PERFORMANCE GRAPH

The following graph compares the yearly percentage change in the cumulative total shareholder return on the common shares of the Company over the last five years, with the cumulative total return of the S&P/TSX Composite Index. The S&P/TSX Composite Index was used as there is no TSX sub-index that would provide a relevant comparison of the performance of the Company's shares with that of its peers. The graph assumes that $100 is invested initially and that all dividends have been reinvested. All amounts are expressed in CDN dollars.

FIVE-YEAR RETURN ON $100 INVESTMENT

	2016	2017	2018	2019	2020	2021	Five-Year Compound Annual Growth Rate
WINPAK	$100	$101	$103	$103	$95	$86	(2.9%)
S&P/TSX Composite	$100	$109	$99	$123	$130	$161	10.0%

The stock performance graph shows a slight negative shareholder return over the 5-year period, trailing the return of the S&P/TSX Composite Index over the same time frame by approximately 12.9 percentage points. The long-term stock performance of a company is ultimately determined by its ongoing and future financial performance. Winpak registered record net income results in 2017 and, as such, maximum payouts were made under the Company's long-term, non-equity cash incentive plan in that year. In 2018, the Company's net income receded from 2017, as a result, moderate payments were made under the Company's long-term, non-equity cash incentive plan. No payments were made under the Company's long-term, non-equity cash incentive plan in either 2019, 2020 or 2021. In 2017, amounts earned under the short-term, non-equity cash incentive plan were moderate as the rate of growth in the Company's earnings was more restrained. In 2018 and 2019, payments made with respect to the short-term, non-equity cash incentive plan were close to the maximum as the Company performed better, in a highly competitive industry environment, than the targets set for management by the Board. The amounts paid on behalf of the short-term, non-equity cash incentive plan declined significantly in 2020 as net income was negatively impacted by the narrowing of gross profit margins and lower sales volumes, due in part to the negative effects that the Coronavirus pandemic had on certain product groups. In 2021, the amounts earned under the short-term, non-equity cash incentive plan were similar to those in the prior year as the gross profit margin contraction due to the remarkable increase in raw material costs, in combination with the benefit of the much higher sales volumes, had a minimal impact on net income.

TERMINATION AND CHANGE OF CONTROL BENEFITS

Employment agreements for the Named Executive Officers of the Company continue indefinitely or until terminated by either party with notice periods of one year. There are no other contracted payments due to the Named Executive Officers upon termination.

Upon a change of control, there are no payments due to any of the Named Executive Officers.

SCHEDULE A
CORPORATE GOVERNANCE PRACTICES

Winpak Ltd. is a controlled corporation in that Wihuri International Oy ("Wihuri") of Helsinki, Finland ultimately owns or controls 52.3 percent of the Company's outstanding common shares. Wihuri actively participates in the oversight of the Company by appointing members of the Company's Board. Those appointees are also officers of Wihuri and, as part of their full time job responsibility at Wihuri, they are knowledgeable about the Company and the industry in which the Company participates. They have no management role and have no relationship with the Company other than as directors and shareholders. A stable, long-term oriented controlling shareholder has a very positive effect that benefits all shareholders and the Company as a whole. That benefit is transmitted to the Company through the involvement of Wihuri officers on the Company's Board.

Corporate Governance Disclosure Requirement	Comments
1. Board of Directors	
(a) Disclose the identity of the directors who are independent.	The following directors are independent: Bruce J. Berry Kenneth P. Kuchma Dayna Spiring Under securities law, a director is independent if he or she has no direct or indirect material relationship with the Company. A "material relationship" is a relationship which could, in the view of the Company's Board of Directors, be reasonably expected to interfere with the exercise of a member's independent judgment. An individual is deemed to have a material relationship with the Company if that individual is, or has been within the last three years, an employee or executive officer of the issuer. Although each of Bruce J. Berry and Kenneth P. Kuchma have acted in that capacity with the Company, neither of them have been so engaged for at least three years. Accordingly, the Board of Directors has concluded that none of the above directors have or has had a direct or indirect material relationship with the Company within the last three years and are therefore independent.
(b) Disclose the identity of directors who are not independent and describe the basis for that determination.	The following directors have a material relationship with the Company and are therefore not independent: Antti I. Aarnio-Wihuri indirectly beneficially owns or exercises control over 52.7 percent of the common shares of the Company, and therefore has an indirect material relationship with the Company. In addition, Antti I. Aarnio-Wihuri is Chairman of Wihuri International Oy, the controlling entity of the Company, and in that capacity has a material relationship with the Company. Martti H. Aarnio-Wihuri is an immediate family member of Antti I. Aarnio-Wihuri. Rakel J. Aarnio-Wihuri is an immediate family member of Antti I. Aarnio-Wihuri. Ilkka T. Suominen is the Vice President and Chief Financial Officer of Wihuri International Oy and therefore is an executive officer of the ultimate majority shareholder.

1. Board of Directors (Continued)	
(c) Disclose whether or not a majority of directors are independent. If a majority of directors are not independent, describe what the Board does to facilitate its exercise of independent judgment in carrying out its responsibilities.	The majority of directors are not independent. However, no director is a member of management and thus the Board believes that it is able to exercise independent judgment in carrying out its responsibilities.
(d) If a director is presently a director of any other issuer that is a reporting issuer (or the equivalent) in a Canadian jurisdiction or a foreign jurisdiction, identify both the director and the other issuer.	None of the directors have any participation on other issuers' Boards.
(e) Disclose whether or not the independent directors hold regularly scheduled meetings at which non-independent directors and management are not in attendance. If the independent directors hold such meetings, disclose the number of meetings held since the beginning of the issuer's most recently completed financial year. If the independent directors do not hold such meetings, describe what the Board does to facilitate open and candid discussion among its independent directors.	Independent directors did not hold scheduled meetings in 2021 outside regular Board meetings but those directors do meet informally to discuss issues as the need arises.
(f) Disclose whether or not the chair of the Board is an independent director. If the Board has a chair or lead director who is an independent director, disclose the identity of the independent chair or lead director, and describe his or her responsibilities. If the Board has neither a chair that is independent nor a lead director that is independent, describe what the Board does to provide leadership for its independent directors.	The chairman of the Board is not an independent director within the meaning of the CSA guidelines. However, he is not a member of management and in the opinion of the Board can exercise independent judgment on matters that come before the Board. The Board does not have a lead independent director. Given the size of the Board, there has not been a need for a lead director.
(g) Disclose whether or not the issuer has adopted term limits for its Board of Directors or other mechanisms of Board renewal. If so, describe the mechanism, if not, why not.	The Company does not have service term limits or mandatory retirement age requirements. To do so may deprive the Board of valuable experience. It may also restrict the controlling shareholder's decision regarding appointees to the Board.

1. Board of Directors (Continued)	
(h) Disclose whether the issuer has adopted a written policy relating to the identification and nomination of directors within each of the following four designated groups: 1) women, 2) aboriginal peoples, 3) persons with disabilities and 4) members of visible minorities. If a policy has been adopted, disclose a short summary of its objectives and key provisions, the measures taken to ensure that it has been effectively implemented, annual and cumulative progress by the issuer in achieving the objectives of the policy, and whether and, if so, how the Board or its nominating committee measures the effectiveness of the policy. If there has been no such policy adopted by the issuer, disclose why it has not done so. Disclose whether and, if so, how the Board or nominating committee considers the level of representation of each of the four designated groups on the Board in identifying and nominating candidates for election or re-election to the Board. If the issuer does not consider the level of representation of each of the four designated groups on the Board in identifying and nominating candidates, disclose why it has not done so. Disclose whether the issuer has adopted a target regarding each of the four designated groups on the issuer's Board. If the issuer has not adopted a target, disclose why it has not done so. For each of the four designated groups, disclose the number and proportion (in percentage terms) who hold director positions on the issuer's Board.	The Company has not adopted a policy related to the identification and nomination of directors. The Corporate Governance, Sustainability, Compensation and Nomination Committee ("CGSCN") determines the specific skills that are required and seeks to find Board candidates best qualified to satisfy these needs. Recommendations from the CGSCN are based solely on merit. The determining criteria include: ability, experience, leadership and professional qualifications. Therefore, the Company does not consider gender, ethnicity or persons with disabilities in the selection of its Board members and does not have a target for people with said backgrounds in Board positions. It is expected that all peoples will be eligible and when they are candidates, they will not be at a disadvantage because of gender, ethnicity or disabilities. During the past twenty years, women have been members of the Company's Board in all but a few years. In the year just completed, two women represented 28.6 percent of the Board's composition. That same year, there was not a member of the Board from: aboriginal peoples, visible minorities or persons with disabilities.

1. Board of Directors (Continued) (i) Disclose the attendance record of each director for all Board meetings held since the beginning of the issuer's most recently completed financial year.	The Board held five meetings in the 2021 financial year, the Audit Committee ("AC") met six times, the Corporate Governance, Sustainability, Compensation and Nomination Committee ("CGSCN") met four times. Attendance: Antti I. Aarnio-Wihuri - Board (5), CGSCN (4) Martti H. Aarnio-Wihuri - Board (5), CGSCN (4) Rakel J. Aarnio-Wihuri - Board (5), CGSCN (4) Bruce J. Berry - Board (5), CGSCN (4) Kenneth P. Kuchma - Board (5), AC (6) Dayna Spiring - Board (5), AC (6) Ilkka T. Suominen - Board (5), AC (6)

3. Position Descriptions (a) Disclose whether or not the Board has developed written position descriptions for the chair and the chair of each Board committee. If the Board has not developed written position descriptions for the chair and/or chair of each Board committee, briefly describe how the Board delineates the role and responsibilities of each such position.	**Chairman of the Board.** Although not in a written document, the chairman's key role is to manage the Board and ensure that the Board carries out its mandate effectively and that the members of the Board understand and respect the boundaries between Board and management responsibilities. It is expected that the chairman will provide leadership to enhance the Board's effectiveness and to ensure the Board operates as a cohesive group. The chairman acts as a liaison between senior management and the Board and works with the CEO regarding all important matters. The chairman is a member of the CGSCN and is active in the development of governance principles applicable to the Company. **Committee Chair**. Although not in a written document, the key role of each committee chair is to manage the committee and to ensure the committee's terms of reference are effectively carried out. It is expected that the committee chair will provide leadership to enhance the committee's effectiveness and to oversee the discharge of the committee's responsibilities. The committee chair will regularly report to the Board regarding the business of the committee.

3. Position Descriptions (Continued)	
(b) Disclose whether or not the Board and CEO have developed a written position description for the CEO. If the Board and CEO have not developed such a position description, briefly describe how the Board delineates the role and responsibilities of the CEO.	The Board, together with the CEO, has developed a written position description for the CEO involving the definition of limits to management's authority. The Board approves the corporate objectives that the CEO is responsible to meet, which are based upon the annual business operating plan.
4. Orientation and Continuing Education	
(a) Briefly describe what measures the Board takes to orient new directors regarding: (i) The role of the Board, its committees and its directors, and (ii) The nature and operation of the issuer's business.	The Company provides an orientation program to new recruits to the Board. New directors receive a Board package and meet with the CEO and other officers of the Company.
(b) Briefly describe what measures, if any, the Board takes to provide continuing education for its directors. If the Board does not provide continuing education, describe how the Board ensures that its directors maintain the skill and knowledge necessary to meet their obligations as directors.	Board meetings rotate between each of the Company's business locations. A significant portion of time at each Board meeting is devoted to tours, presentations and meeting with local management regarding business issues pertaining to that facility.
5. Ethical Business Conduct	
(a) Disclose whether or not the Board has adopted a written code for the directors, officers and employees. If the Board has adopted a written code:	The Board has adopted a written Code of Business Conduct (the "Code") that summarizes the Company's corporate values and details the standards of business conduct expected of all employees, Board members and others associated with the Company.
(i) Disclose how a person or company may obtain a copy of the code;	The Code is available on the Company's website (www.winpak.com), SEDAR (www.sedar.com) and available upon request from the Secretary of the Company, Winpak Ltd., 100 Saulteaux Crescent, Winnipeg, Manitoba, R3J 3T3, telephone (204) 889-1015, and without charge to securityholders of the Company.
(ii) Describe how the Board monitors compliance with its code, or if the Board does not monitor compliance, explain whether or how the Board satisfies itself regarding compliance with its code; and	The Company's Manager, Internal Audit, at the request of the Audit Committee, periodically conducts a review of the Code and secures signed Code of Conduct Compliance Certificates from all Winpak management personnel and all members of the Board. It was reported to the Board that no discrepancies in compliance have been noted. This review is conducted approximately every three years and all new employees and directors are required to sign off on compliance with the Code upon hire.

5. Ethical Business Conduct (Continued)	
(iii) Provide a cross-reference to any material change report filed since the beginning of the issuer's most recently completed financial year that pertains to any conduct of a director or executive officer that constitutes a departure from the code.	There have been no such material change reports filed during the last year.
(b) Describe the steps the Board takes to ensure directors exercise independent judgment in considering transactions and agreements in respect of which a director or executive officer has a material interest.	The Company has a Code that states a policy regarding conflicts of interest. Board members must declare if they have a conflict of interest when considering transactions and agreements. When considering any such transactions and agreements, prior approval must be received from the Board before finalization.
(c) Describe any steps the Board takes to encourage and promote a culture of ethical business conduct.	See the steps described above. The Board and management encourage adherence to the Code.
6. Nomination of Directors	
(a) Describe the process by which the Board identifies new candidates for Board nomination.	The CGSCN is responsible to identify and interview potential candidates and present recommendations to the Board.
(b) Disclose whether or not the Board has a nominating committee composed entirely of independent directors. If the Board does not have a nominating committee composed entirely of independent directors, describe what steps the Board takes to encourage an objective nomination process.	The majority of the members of the CGSCN are not independent. However, the non-independent members are not members of the entity's management and thus are considered to operate as unrelated directors.
(c) If the board has a nominating committee, describe the responsibilities, powers and operation of the nominating committee.	The Board has established terms of reference for the CGSCN which are attached hereto as Schedule C.

7. Compensation	
(a) Describe the process by which the Board determines the compensation for the issuer's directors and officers.	The CGSCN periodically conducts a review of director's compensation in Canada for companies traded on the Toronto Stock Exchange that are comparable in complexity and size to the Company. A review was conducted in 2021. Historically, the Board has established compensation for the Company's directors at the mid to lower end of the compensation range for directors of Canadian companies as determined by the Committee's review. Every three years, the Committee reviews the total compensation of the CEO and those officers that report to the CEO. The Committee references survey data comparing executive compensation in the industry and in the employee's respective community for positions with comparable job responsibilities. The review considers an assessment by the Board of the performance of the Company's senior management.
(b) Disclose whether or not the Board has a compensation committee composed entirely of independent directors. If the Board does not have a compensation committee composed entirely of independent directors, describe what steps the Board takes to ensure an objective process for determining such compensation.	The majority of the members of the CGSCN are not independent. However, the non-independent members are not members of the entity's management and thus are considered to operate as unrelated directors.
(c) If the Board has a compensation committee, describe the responsibilities, powers and operation of the compensation committee.	The Board has established terms of reference for the CGSCN, which are attached hereto as Schedule C.
(d) If a compensation consultant or advisor has, at any time since the beginning of the issuer's most recently completed financial year, been retained to assist in determining compensation for any of the issuer's directors and officers, disclose the identity of the consultant or advisor and briefly summarize the mandate for which they have been retained. If the consultant or advisor has been retained to perform any other work for the issuer, state that fact and briefly describe the nature of the work.	During 2021, the Company retained Mercer to provide independent advice and services with respect to executive compensation matters. Specifically, a summary was prepared for North American companies in the manufacturing sector. Findings from this report, coupled with input from the CGSCN, resulted in the recommended adjustments to executive salaries, effective January 1, 2022.

8. Other Board Committees If the Board has standing committees other than the audit, corporate governance and sustainability, compensation and nomination committees, identify the committees and describe their function.	There are no other Board committees.
9. Assessments Disclose whether or not the Board, its committees and individual directors are regularly assessed with respect to their effectiveness and contribution. If assessments are regularly conducted, describe how the Board satisfies itself that the Board, its committees, and its individual directors are performing effectively.	No formal assessments are conducted. Board effectiveness is assessed by the Board as a whole, considering the operation of the committees, the adequacy of information given to directors, the quality of communications between the Board and management, and the strategic direction and processes used. The performance of the Board is linked to the Company's success in implementing the strategic plan.
10. Executive Officer Diversity Disclose whether, or if so, how the issuer considers the level of representation of each of the following four designated groups in executive officer positions when making executive appointments: 1) women, 2) aboriginal peoples, 3) persons with disabilities and 4) members of visible minorities. If the issuer does not consider the levels of such representation, disclose the issuer's reasons for not doing so. Disclose whether the issuer has adopted a target regarding each of the four designated groups in executive positions of the issuer. If the issuer has not adopted a target, disclose why it has not done so. For each of the four designated groups, disclose the number and proportion (in percentage terms) who are executive officers of the issuer, including all major subsidiaries of the issuer.	The Company does not consider gender, ethnicity, or persons with disabilities in the selection of executive officers and does not have a target for people with said backgrounds in executive positions. The determining criteria include: ability, experience, leadership and professional qualifications. It is expected that all peoples will be eligible and when they are candidates, they will not be at a disadvantage because of gender, ethnicity or disabilities. In the year just completed, 3 women or 21.4 percent held executive positions. During that same period, no aboriginal peoples, persons with disabilities, or members of visible minorities held an executive position.
